

Dear William and Hannah Readers,

Thank you so much for being a part of the Howard Forge Press family. I have a new special free book promotion to share with you, and I want to tell you about a new author I think you will love.

Olivia Grover is a historical fiction and fantasy author. I had the privilege of being the first person to read her current novel, 'Risen'. It's going to be a great book that you will love, so I asked her to tell you a little bit about herself..

Olivia Grover has one finished historical fiction novel, 'Risen,' and several short stories published in literary journals. She has a Bachelor's Degree in English. She is a lifelong avid reader and has dreamed of becoming an author since childhood. As a wife and mother to three small children for the last 11 years, that dream seemed less and less likely until her father fell ill in 2025. She decided to stop pushing aside her dream and make time to write. She committed to finishing the story she

told him about. Unfortunately, he passed away before she completed her first novel, *Risen*. She finished it for him. She loves to incorporate her faith into the stories she writes, but does not shy away from addressing deep issues. She also loves writing about fantastic worlds full of wonder and magic, and hopes to imbue that in her next fantasy novel. She lives in Idaho with her soulmate Brady and three children on a little farm full of animals. She loves to bake elaborately decorated cakes, garden, DIY renovate their 100-year-old home with her husband, and show her American Miniature Shetland Ponies. She hopes that anyone who reads her stories can find something that resonates with them and brings light to their life.

You can follow **Olivia** on Instagram at: omgroverwrites or Facebook at: Olivia Marie Grover Author

Please say hi and tell her I told you about her.

Celebrate America 250 with Clean/Christian Historical Fiction/ Romance

All of the books in this promotion are free, so I hope you find something you will enjoy. As always, even if you don't get a book, please click on the link and take a look. The book promoters track the number of clicks, which helps me get invited to participate and bring you more free books.
